The Egg Ergo Mouse Pad

Unique design: the Egg-form follows the natural mousing pattern

Hygienic: antibacterial surface

Comfortable: thermal-insulating top surface keeps your hand warm, prevents complaints

Productive: smooth surface provides accurate mouse control

Eco: recycled material

Specifications

Dimensions:	230 x 300 x 2 mm (W x D x H)
Weight:	60 g
Product code:	BNEEMP

Research
Tables are often cold and cause poor circulation in one's hand and wrist. Research has shown that a large insulated mouse pad prevents a cold "mouse hand" and therefore contributes to extra comfort (Eline M. Meijer - Coronel Institute of Occupational Health).

1

1. Large mousing surface
2. Smooth and accurate
3. Comfortable

2

3

Health & Safety Regulations
When working with a keyboard and mouse it is important that the arm is sufficiently supported by using a good armrest on the chair or a separate armrest. An armrest reduces muscle tension in the arm and shoulder and promotes comfort. A wrist support helps to keep the wrist straight during typing and can be used "to rest" for a moment during one's work.
